Abstract

摘要

- ✓ The DCE iron ore futures contract has established a well-developed delivery system centered on **clearly defined quality standards, a premium/discount structure for multiple deliverable brands**, and diversified delivery methods. The system specifies the quality requirements and premiums/discounts for all deliverable brands, allowing market participants to select the “**cheapest-to-deliver**” product through the calculation of the futures-adjusted price. This enables differentiated delivery of spot cargoes with varying qualities under a single standardized contract, ensuring the representativeness and effectiveness of the futures price.
- ✓ To ensure the final convergence between the futures and spot markets, the exchange offers multiple delivery mechanisms—including exchange for **physicals (EFP), rolling delivery, pick-up order delivery, and one-time final delivery**—to accommodate the diverse needs of different market participants. This rigorous and well-defined system, supplemented by substantial penalties for default, provides institutional investors with a reliable framework for risk management and physical settlement, serving as essential infrastructure for the proper functioning of the futures market.
- ✓ 大商所铁矿石期货建立了一套成熟的交割制度，其核心在于**明确的质量标准、多品牌下的升贴水体系，以及多元化的交割方式**。该制度明确规定了可交割品牌的品质要求与升贴水，市场参与者可以通过“折盘面价格”的计算选择“最便宜可交割品”进行交割，从而在统一合约下实现了不同品质现货的差异化交割，确保了期货价格的代表性与有效性。
- ✓ 为确保期货与现货市场的最终收敛，交易所设计了**期转现、滚动交割、提货单交割和一次性交割**等多种方式，以适应不同市场参与者的个性化需求。这套流程严谨、权责分明的制度，辅以高额违约罚则，为机构投资者进行风险管理和实物交收提供了可靠的制度保障，是期货市场功能得以发挥的关键基础设施。

Risks: Basis Fluctuation, Operational Risk, Policy Changes, Economic Fluctuations , etc. **风险提示：**基差波动、操作风险、政策变化、经济波动等

1.1 Contract Details

合约介绍

Trade Category	DCE Iron Ore Futures
Contract Unit	100 metric tonnes
Price Quotation	CNY/MT
Minimum Price Fluctuation	0.5 CNY/MT
Daily Price Limits	4% of the previous trading day's settlement price
Contract Months	Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, Dec
Trading Hours	From Monday to Friday, 9:00 am to 10:15 am, 10:30 am to 11:30 PM, 13:30 PM to 15:00 PM Continuous trading hours: 21:00 ~ 23:00 trading hours on the previous day (Monday night trading hours are 21:00 ~ 23:00 on Friday)
Last Trading Day	The 10th trading day of the contract month
Delivery Form	Physical delivery
Product Code	I
Exchange	DCE
Position Accountability / Position Limit	Position limits are adjusted according to the months approaching the delivery month and market contingencies

Items	Quality Standards
Fe	= 61.0%
SiO2	= 4.5%
Al2O3	= 2.5%
P	≤ 0.10%
S	≤ 0.03%

1.1 Contract Details

合约介绍

交易品种	大连商品交易所铁矿石期货
交易单位	100吨/手
报价单位	元（人民币）/吨
最小变动价位	0.5元/吨
涨跌停板幅度	上一交易日结算价的4%
合约交割月份	1、2、3、4、5、6、7、8、9、10、11、12月
交易时间	每周一至周五上午9:00~10:15,10:30~11:30,下午13:30~15:00 连续交易时间：前一自然日21：00~23：00交易时间（周一夜盘交易时段为上周五的21：00~23：00）
最后交易日	合约月份第10个交易日
交割方式	实物交割
交易代码	I
上市交易所	大连商品交易所
持仓限制	随着临近交割月的月份不同，以及市场突发情况调整持仓限制

指标	标准品质量标准
铁（Fe）	= 61.0%
二氧化硅（SiO2）	= 4.5%
三氧化二铝（Al2O3）	= 2.5%
磷（P）	≤ 0.10%
硫（S）	≤ 0.03%

1.2 Delivery Standard

交割标准

Item	Permissible Range	Premium/Discount (CNY/MT)	
Iron (Fe)	≥56.0%	[60.0%,63.5%]	Compared with 61%, discount of X per decrease of 0.1%; premium of X per increase of 0.1%
		[56.0%,60.0%)	Compared with 60%, discount of X+1.5 per decrease of 0.1%, and accumulated with the discount of [60.0%, 63.5%]
		>63.5%	Compared with 63.5%, premium of X+1.0 per increase of 0.1%, and accumulated with the premium of [60.0%, 63.5%]
Silicon dioxide (SiO ₂)	≤8.5%	<4.5%	Compared with 4.5%, premium of 0.5 per decrease of 0.1%
		(4.5%,6.5%]	Compared with 4.5%, discount of 1.0 per increase of 0.1%
		(6.5%,8.5%]	Compared with 6.5%, discount of 1.5 per increase of 0.1%, and accumulated with the discount of (4.5%, 6.5%]
Aluminum oxide (Al ₂ O ₃)	≤3.5%	<1.0%	Accounted as per 1.0%
		[1.0%,2.5%)	Compared with 2.5%, premium of 2.0 per decrease of 0.1%
		(2.5%,3.5%]	Compared with 2.5%, discount of 3.0 per increase of 0.1%
Phosphorus (P)	≤0.15%	(0.10%,0.12%]	Compared with 0.10%, discount of 10.0 per increase of 0.01%
		(0.12%,0.15%]	Compared with 0.12%, discount of 15.0 per increase of 0.01%, and accumulated with the discount of (0.10%,0.12%]
Sulfur (S)	≤0.20%	(0.03%,0.10%]	Compared with 0.03%, discount of 1.0 per increase of 0.01%
		(0.10%,0.20%]	Compared with 0.10%, discount of 5.0 per increase of 0.01%, and accumulated with the discount of (0.03%, 0.10%]

In particular, the sum of silicon dioxide (SiO₂) and aluminum oxide (Al₂O₃) shall not exceed 10%. The determination method, publication time and implementation time for **the X value** in the quality premium/discount of Iron (Fe) item are as follows:

Publication Time	Determination Method for X Value	Implementation Time
Last trading day in each March	Taking the daily settlement price of the contract in the latest delivery month from the 11th trading day in September of the previous year to the 10th trading day in March of the current year to calculate the arithmetic mean value.	From the first trading day in October of the current year to the last trading day in March of the next year
	If such value<600 CNY/MT, then X=1.0 CNY/MT;	
	If 600 CNY/MT ≤ such value≤1,200 CNY/MT, then X=1.5 CNY/MT;	
	If such value>1,200 CNY/MT, then X=2.0 CNY/MT.	
Last trading day in September each year	Taking the daily settlement price of the contract in the latest delivery month from the 11th trading day in March of the current year to the 10th trading day in September of the current year to calculate the arithmetic mean value.	From the first trading day in April of the next year to the last trading day in September of the next year
	If such value<600 CNY/MT, then X=1.0 CNY/MT;	
	If 600 CNY/MT ≤ such value≤1,200 CNY/MT, then X=1.5 CNY/MT;	
	If such value>1,200 CNY/MT, then X=2.0 CNY/MT.

1.4 Premiums & Discounts

升贴水

- Iron ore deliverables must be specific brands produced by manufacturers approved by the exchange.
- As the DCE iron ore contract allows multiple deliverable brands with varying quality and pricing, sellers tend to choose the most cost-effective option—typically the one with the lowest net futures-adjusted price.
- Recently, Kumba, Newman Fines and Carajas FINES have been the cheapest deliverable brands.
- The adjusted price is calculated as: **Adjusted Price = RMB Spot Price / (1 – Moisture Content) – Total Premium/Discount.**
- 铁矿石可交割品必须为交易所认可的指定品牌。
- 由于大商所铁矿石期货允许多个品质和价格不同的品牌交割，卖方通常会选择性价比最高的品牌——一般是折盘面价格最低的品种。
- 折盘面价格= 人民币现货价格 / (1 – 水分) – 总升贴水。**
- 近期Kumba、纽曼粉和卡拉加斯粉是最低价可交割品牌。

Brand Short Name 品牌简称	Fe 铁	H2O 水分	Quality Premiums / Discounts 质量升贴水 (CNY/MT)	Brand Premiums / Discounts 品牌升贴水 (CNY/MT)	Total Premiums / Discounts 总升贴水 (CNY/MT)

Delivery Types

交割方式

02

2.1 Concept Introduction

概念介绍

- ❑ **Delivery:** Delivery refers to the process by which both parties to a futures contract close their open positions through the transfer of ownership of the underlying commodity, in accordance with the terms of the contract and the exchange's rules. Simply put, when a contract reaches maturity, the buyer with an open position pays the full amount and takes delivery of the physical commodity, while the seller delivers the commodity and issues a VAT invoice.
- ❑ **Standard Warrant:** A standard warrant is a physical delivery receipt issued by an exchange-designated delivery warehouse after the goods have been inspected, confirmed to meet quality standards, and officially registered. It is uniformly standardized by the exchange.
- ❑ **Last Trading Day :** The last day on which a contract can be traded. For iron ore futures on the Dalian Commodity Exchange (DCE), this is the **tenth trading day of the contract month**.
- ❑ **Last Delivery Day :** The final day for completing the delivery of a contract. For DCE's industrial products, this is the **third trading day after the last trading day of the contract month**.
- ❑ **Delivery via Warrant :** This refers to when a member delivers a standard warrant to the exchange on behalf of the seller. The exchange then releases the full margin corresponding to the short position in the nearby delivery month, while profit and loss are settled in cash.
- ❑ **交割:** 是指期货合约的买卖双方按照合约条款和交易所规则, 通过标的商品所有权转移来了结未平仓头寸的过程。简单来说, 当合约到期时, 持有多头头寸的买方支付全额货款并提取实物商品, 持有空头头寸的卖方则交付商品并开具增值税发票。
- ❑ **标准仓单:** 是由交易所指定交割仓库在货物检验合格、确认符合质量标准并完成注册后签发的实物交割凭证, 由交易所统一规范管理。
- ❑ **最后交易日:** 指某合约可以进行交易的最后一天。以大连商品交易所 (DCE) 铁矿石期货为例, 最后交易日为**合约月份的第十个交易日**。
- ❑ **最后交割日:** 指完成该合约交割的最后期限。对大商所工业品而言, 最后交割日为**合约月份最后交易日日后的第三个交易日**。
- ❑ **仓单交割:** 指会员代表卖方向交易所提交标准仓单进行交割。交易所随即释放该近期交割月份空头仓位对应的全部保证金, 盈亏以现金方式结算。

Sources: DCE, CITIC Futures

2.2 Delivery Types: Overview

交割方式：概览

Exchange for Physicals (EFP)

This refers to a negotiated agreement between two parties holding positions in the same delivery month contract, where both parties agree to settle their futures positions at a pre-agreed price and simultaneously execute the physical transaction: the seller delivers the physical commodity and the buyer makes the corresponding payment.

One-Time Delivery

After the last trading day of a contract, the exchange organizes all remaining open positions for final delivery. Opposing positions under the same client code are automatically offset and not subject to delivery. The closing price for such positions is calculated based on the final delivery settlement price.

Delivery by Pick-Up Order

During a specified period in the month prior to the delivery month, both buyer and seller may voluntarily apply for delivery. The exchange organizes matching and supervises the entire physical delivery process according to prescribed procedures. This is a form of early physical delivery.

Rolling Delivery

From the first trading day of the delivery month up to the trading day before the last trading day, sellers with net short positions may apply to deliver through standard warehouse warrants or railcar delivery. The exchange then matches buyers and sellers and supervises the completion of delivery within the specified period.

期转现交割

指双方持有同一交割月份合约的持仓，通过协商一致，在约定价格下对期货头寸进行对敲平仓，并同时完成现货交易：卖方交付实物商品，买方支付相应货款。

一次性交割

在合约最后交易日之后，交易所对所有未平仓合约统一组织最终交割。相同客户编号下的对冲头寸将自动对冲，不参与交割。其平仓价格按照最终交割结算价计算。

提货单交割

在交割月份前一个月份的指定时间内，买卖双方可自愿申请交割。交易所按规定程序组织配对并监督整个实物交割过程，这是提前进行实物交割的一种方式。

滚动交割

在交割月份的第一个交易日至最后交易日前一交易日期间，净空头会员可申请通过标准仓单或铁路车板进行交割。交易所据此组织买卖双方配对，并在规定时间内监督完成交割。

2.2.1 Exchange for Physicals (EFP)

期转现交割

EFP Types	Application and Approval	Submit materials	Obligations	Payment and delivery	Delivery fees
Standard Warehouse Receipt EFP	Applications submitted before 11:30 on the trading day shall be approved by the exchange on the same day.	EFP Application; Spot Trade Agreement; Relevant Payment Proof; Supporting Documents for Goods Ownership (Standard Warehouse Receipts, Warehouse Entry Slips, Inventory Lists, etc.)	Approved by 11:30 on the approval day, the seller member shall deliver the corresponding quantity of standard warehouse receipts to the exchange; the buyer member shall transfer the full payment calculated at the agreed price to the exchange account.	The exchange shall handle the warehouse receipt delivery and payment settlement.	Charged according to the delivery fee standard of the product.
Non-Standard Warehouse Receipt EFP	The exchange shall process the application within three trading days upon receipt.	EFP Application; Spot Purchase-Sale Agreement; Relevant Payment Certification; Supporting Goods Ownership Documents (Warehouse Receipts, Inventory Lists, etc.)	After completing the spot transaction, both trading parties shall submit proof of goods delivery and payment to the exchange. The exchange reserves the right to supervise and verify the transaction.	The delivery of goods and payment settlement shall be determined through mutual negotiation between the trading parties, and the exchange assumes no guarantee responsibility.	The transaction shall be charged according to the trading fee standard of the product.

✓ Notes:

All industrial futures listed on the exchange may use Exchange for Physicals (EFP) delivery.

Only institutional clients may apply for EFP. For all commodities except eggs, the EFP window runs from contract listing date until the third-to-last trading day of the month before delivery (inclusive). For non-standard-warrant egg contracts, EFP is allowed from listing date until the fourth-to-last trading day before the last trading day (inclusive).

On the EFP approval date, the exchange settles both parties' futures positions at the agreed price; resulting P&L is included in that day's closing P&L.

EFP positions are deducted from that day's open interest, and EFP trades do not affect the daily settlement price or volume. The exchange publishes all EFP execution details at the end of each trading day.

2.2.1 Exchange for Physicals (EFP)

期转现交割

期转现种类	申请及批复	提交材料	双方义务	货款交收	交割费用
标准仓单期转现	交易日11:30前提出申请, 交易所在申请的当日内予以审批	期转现申请; 现货买卖协议; 相关的货款证明; 相关的标准仓单、入库单、存货单等货物持有证明	批准日11:30前, 卖方会员应将相应数量的标准仓单交到交易所; 买方会员应将按协议价格计算的全额货款划入交易所账户	仓单交收和货款支付由交易所负责办理	按该品种交割手续费标准收取
非标准仓单期转现	交易所在收到申请后的三个交易日内予以审批	期转现申请; 现货买卖协议; 相关的货款证明; 相关的入库单、存货单等货物持有证明	交易双方在现货交易结束后向交易所提交货物交收和货款支付证明, 交易所所有权进行监督和核查	货物交收和货款支付由交易双方自行协商确定, 交易所不承担保证责任	按该品种交易手续费标准收取

✓ 注意事项:

所有在交易所上市的工业品期货均可采用期转现交割（EFP）方式。

仅机构客户可以申请期转现交割。除鸡蛋外，所有商品的期转现交割申请时间为：自合约上市之日起至交割月份前一月份倒数第3个交易日（含当日）。对于采用非标准仓单的鸡蛋合约，期转现交割的允许时间为：自合约上市之日起至最后交易日前第4个交易日（含当日）。

在期转现交割批准日，交易所将按双方约定价格对期货头寸进行结算，所产生的盈亏计入当日的平仓盈亏。

期转现交割对应的持仓数量将在当日从未平仓合约中扣除，且期转现交割不影响当日结算价和成交量。交易所会在每日收盘后公布所有期转现交割的执行情况。

2.2.2 One-Time Delivery

一次性交割

Operational Procedures	Buyer			Seller		
	Payment	Invoice	Warehouse Receipt	Payment	Invoice	Warehouse Receipt
Last Trading Day	After market close, the margin for buy positions shall be converted into delivery advance payment.					
Standard Warehouse Receipt Submission Date						Before market close, all standard warehouse receipts corresponding to the open positions in the delivery month contract shall be submitted to the exchange.
Matching Day		The buyer shall notify the seller of the specific details regarding the issuance of invoices or other documents recognized by the exchange within 1 trading day after the matching day.			The seller shall deliver the value-added tax (VAT) special invoice, other forms of invoices, or other documents recognized by the exchange to the buyer within 7 trading days after the matching day.	
Last Delivery Day	Before market close, the balance payment corresponding to the open positions in the delivery month contract shall be settled in full.		After market close, the exchange shall deliver the standard warehouse receipts submitted by the seller member to the buyer member.	The seller shall receive 80% of the delivery payment initially, with the remaining balance to be settled upon submission of the value-added tax (VAT) special invoice, other valid invoices, or other documents recognized by the exchange.		

Notes:

All industrial products listed on the DCE are eligible for one-time delivery.

The delivery settlement price shall be the weighted average price of all transactions from the first trading day of the delivery month to the last trading day.

Sources: DCE, CITIC Futures

2.2.2 One-Time Delivery

一次性交割

操作流程	买方			卖方		
	付款	通知	仓单	付款	通知	仓单
最后交易日	收市后，买方保证金将转为交割预付款。					
标准仓单提交日						收市前，所有交割月合约持仓对应的标准仓库收据须提交至交易所。
配对日		配对日后1个交易日内，买方应通知卖方有关开具发票或交易所认可的其他单据的具体细节。			卖方应在配对日后7个交易日内，将增值税专用发票、其他形式的发票或交易所认可的其他单据交付给买方。	
最后交割日	收市前，交割月合约持仓对应的货款须全额结清。		收市后，交易所应将卖方提交的标准仓单交付给买方。	卖方先收取交货货款的80%，余款待提交增值税专用发票、其他有效发票或交易所认可的其他单据后结清。		

注意事项:

大连商品交易所（DCE）所有上市工业品均适用一次性交割方式。

交割结算价应当采用该交割月首个交易日至最后交易日所有成交价格的加权平均价。

2.2.3 Delivery by Pick-Up Order

提货单交割

Delivery by Pick-Up Order involves six key steps: application & matching, arrival notice, on-site exchange, quality inspection & data entry, delivery confirmation, and settlement.

✓ **Application & Matching:** Buyers submit their delivery applications between the 10th and 14th trading days of the month before delivery. Sellers submit their matching applications by 2:00 PM on the next trading day after a buyer's application. After market close on the seller's submission day, the exchange matches paired applications and closes out the corresponding futures positions at that day's settlement price. Matching results are then published.

✓ **Arrival Notice:** On the designated notice day, sellers enter vessel arrival details via the electronic warrant system. After market close, the exchange forwards these details to the buyer's clearing member. On the margin top-up day (or three calendar days after the last notice day), the exchange notifies members that buyers must top up delivery pre-payments and sellers must top up delivery margins to 20% of the matched contract value. Funds are transferred from each member's settlement reserve after market close.

✓ **On-Site Exchange:** Sellers notify buyers before unloading begins. Both parties attend the port to supervise the transfer, and buyers commission a quality-inspection agency to take and retain samples. On the day unloading completes, sellers submit delivery details based on the port's weighbridge tickets via the electronic warrant system. Buyers must confirm these details that same day; if no objection is recorded by market close, the exchange treats the details as accepted.

2.2.3 Delivery by Pick-Up Order

提货单交割

Delivery by Pick-Up Order involves six key steps: application & matching, arrival notice, on-site exchange, quality inspection & data entry, delivery confirmation, and settlement.

✓**Quality Inspection & Data Entry:** Buyers must submit the inspection report to both the exchange and the seller within seven working days after sampling and before the trading day preceding the last trading day. The buyer's member enters inspection results into the electronic warrant system. Sellers confirm the results by market close on the trading day following the buyer's data entry.

✓**Delivery Confirmation:** After inspection is complete, buyers, sellers, and the port confirm the delivery details. Sellers must submit the "Delivery Confirmation Notice" via the electronic warrant system by 2:00 PM on the next trading day. Buyers must confirm by 2:30 PM the same day; absence of objection is taken as agreement. After close of business on the confirmation day, the exchange issues a "Payment Top-Up Notice" to the buyer's member, detailing any shortfalls, surpluses, or brand premiums/discounts.

✓**Settlement:** Before market close on the delivery day, buyers' members transfer any balance between the final payment (including surpluses/shortfalls and premiums/discounts) and their delivery pre-payments to the exchange's dedicated settlement account. After market close, for duty-paid goods, the exchange releases the seller's delivery margin and transfers 80% of the full payment to the seller; the remaining 20% is paid upon receipt of a VAT invoice. For bonded goods, the exchange similarly releases the seller's margin and transfers 80% of the payment, with the remainder settled once the seller provides other approved documentation or invoices.

2.2.3 Delivery by Pick-Up Order

提货单交割

提货单交割包含六个关键步骤：申请与配对、到货通知、现场交接、质检与录入、交割确认及结算。

申请与配对：买方需在交割月前一个月的第10至14个交易日内提交交割申请。卖方应在买方申请后的次一交易日14:00前提交配对申请。交易所于卖方申报日收市后对匹配的申请进行配对，并以当日结算价对冲了结相应期货持仓，随后公布配对结果。

到货通知：在指定通知日，卖方通过电子仓单系统录入船舶到港信息。交易所于收市后将信息转发买方结算会员。至保证金补足日（即最后通知日后第三个日历日），交易所通知会员：买方需补足交割预付款，卖方需补足交割保证金，金额均需达到配对合约价值的20%。相关款项于收市后从会员结算准备金中划转。

现场交接：卖方应在开始卸货前通知买方。双方共同抵达港口监督货物转移，买方委托质检机构取样并封存样品。卸货完成当日，卖方根据港口地磅单通过电子仓单系统提交交货明细。买方须于当日确认该明细；若收市前未记录异议，则视为接受相关明细。

质检与录入：买方应在取样后七个工作日内、且最晚在最后交易日前一个交易日前，将检验报告提交给交易所和卖方。买方会员将检验结果录入电子仓单系统，卖方须在买方录入数据后的次一交易日收市前确认结果。

交割确认：质检完成后，买方、卖方及港口共同确认交割细节。卖方须在次一交易日14:00前通过电子仓单系统提交《交割确认通知单》，买方须在当日14:30前确认，未提出异议视为同意。确认日业务结束后，交易所向买方会员出具《补货款通知单》，列明短溢、品牌升贴水等明细。

结算：交割日收市前，买方会员将最终货款（含短溢、升贴水）与交割预付款的差额划转至交易所专用结算账户。收市后：对于完税商品，交易所释放卖方交割保证金，将80%全额货款划转卖方，待收到增值税发票后支付剩余20%；对于保税商品，交易所同样释放卖方保证金并支付80%货款，余款待卖方提供其他认可单据或发票后结清。

2.2.4 Rolling Delivery

滚动交割

✓ Matching Day

Seller Delivery Application: After the start of the delivery month, sellers may submit delivery applications via their member firm. The application quantity must not exceed their net short position. From the first trading day of the delivery month until the trading day before the last trading day, sellers may apply each trading day before 11:30 AM.

Buyer Intention Declaration: Buyers holding net long positions in the delivery month may, based on the exchange's published seller applications, declare two delivery intentions each day (a first and a second intent) before market close. Priority is given to each buyer's first intent; if it is unmet or only partially met, their second intent is then considered. For any given delivery warehouse or rail-car delivery location, buyers naming it as their first intent are matched first; any remaining capacity is allocated to buyers who named it as their second intent. Declarations are valid only on the day submitted.

✓ After market close on the matching day, the exchange conducts delivery matching according to the following principles and steps:

- (1) Aggregate all standard-warrant and railcar delivery intentions.
- (2) Match buyers to the specified delivery warehouses or railcar delivery locations.
- (3) Match buyers and sellers.

Buyer members' trading margin on matched long positions is converted into delivery pre-payment. For standard-warrant delivery, matched sellers' trading margin is released. For rail-car delivery, matched sellers' trading margin is converted into delivery margin, with any refunds handled according to the futures contract's business rules. The "Delivery Notice," matching results, and all rolling-delivery details are sent to both buyer and seller members with the matching-day settlement statement, and the relevant information is also notified to the designated delivery warehouses and rail-car delivery sites.

Sources: DCE, CITIC Futures

2.2.4 Rolling Delivery

滚动交割

✓ 配对日

卖方交割申请：进入交割月后，卖方可通过其会员单位提交交割申请。申请数量不得超过其净空头持仓。自交割月第一个交易日起至最后交易日前一交易日，卖方可在每个交易日11:30前提交申请。

买方意向申报：持有交割月净多头持仓的买方，可根据交易所公布的卖方申请情况，在每日收市前申报两个交割意向（第一意向与第二意向）。优先匹配各买方申报的第一意向；若第一意向未能满足或仅部分满足，则考虑其第二意向。对于任一指定交割仓库或车板交割场所，优先匹配将其列为第一意向的买方；剩余额度再分配给将其列为第二意向的买方。申报仅当日有效。

配对日收市后，交易所按以下原则和步骤进行交割匹配：

- (1) 汇总所有标准仓单与车板交割意向；
- (2) 将买方匹配至指定交割仓库或车板交割场所；
- (3) 完成买卖双方匹配。

配对后，买方会员的匹配多头持仓交易保证金转为交割预付款。对于标准仓单交割，匹配卖方的交易保证金予以释放；对于车板交割，匹配卖方的交易保证金转为交割保证金，如有退款则按期货合约业务规则处理。《交割通知单》、配对结果及所有滚动交割明细将随配对日结算单一并发送至买卖双方会员，同时相关信息将通知指定交割仓库和车板交割场所。

Delivery Process

交割流程

03

3.1 Seller Delivery

卖方交割流程

- ◻ Note: If registering standard warehouse receipts at factory warehouses, the delivery process commences from the step "The authorized warehouse shall register the standard warehouse receipts in the system."
- ◻ 注：若在厂库办理标准仓单注册，交割流程从"指定仓库在系统中办理标准仓单注册"环节开始。

4.2 Default Handling

交割违约处理

✓ **A delivery default occurs if either party fails to fulfill its obligations within the specified deadlines:**

1. The seller fails to deliver the required number of standard warrants.
2. The buyer fails to pay the required purchase price.

✓ **Seller's Default Quantity (contracts):**

Seller Default Quantity = Required Standard Warrants – Delivered Standard Warrants

✓ **Buyer's Default Quantity (contracts):**

1. For duty-paid warrants: Buyer Default Quantity = $(\text{Required Payment} - \text{Paid Amount}) \div (1 - 20\%) \div \text{Delivery Settlement Price} \div \text{Contract Unit}$
2. For bonded warrants: Buyer Default Quantity = $(\text{Required Bonded Payment} - \text{Paid Amount}) \div (1 - 20\%) \div \text{Bonded Delivery Settlement Price} \div \text{Contract Unit}$

✓ Upon a default, after settlement on the last delivery day, the exchange notifies the defaulting and non-defaulting parties via the member service system; notification is deemed delivered once sent. The defaulting party pays a penalty equal to 20% of the defaulted contract value to the non-defaulting party, and delivery is terminated. The exchange's guarantor liability is extinguished upon termination.

✓ If both parties default, delivery is terminated and each party pays a penalty of 5% of their respective defaulted contract value.

✓ In cases of partial default, the defaulting member's received warrants or funds may be applied to cover the default. Intentional default in the delivery process is punished according to Article 25 of the DCE's Disciplinary Measures.

Sources: DCE, CITIC Futures

This report is not a service under the futures trading consulting business. The opinions and information provided are for reference only and do not constitute investment advice to anyone. CITIC Futures do not consider relevant personnel as client due to the attention, receipt, or reading of this report

1.4 Delivery Default

交割违约处理

✓ 当一方未在规定的期限内履行其义务时，即构成交割违约：

- (1) 卖方未能交付规定数量的标准仓单；
- (2) 买方未能支付规定的货款金额。

✓ 卖方违约数量（以合约计）：

卖方违约数量 = 应交标准仓单数量 - 已交标准仓单数量
Buyer's Default Quantity (contracts):

✓ 买方违约数量（以合约计）：

对于完税仓单：买方违约数量 = $(\text{应交货款} - \text{已支付金额}) \div (1 - 20\%) \div \text{交割结算价} \div \text{合约单位}$

对于保税仓单：买方违约数量 = $(\text{应交保税货款} - \text{已支付金额}) \div (1 - 20\%) \div \text{保税交割结算价} \div \text{合约单位}$

发生违约后，在最后交割日结算时，交易所通过会员服务系统向违约方和非违约方发送通知；通知一经发出即视为送达。违约方应向非违约方支付相当于违约部分合约价值20%的违约金，交割终止。交易所的担保责任随交割终止而解除。

若双方均违约，则交割终止，双方各自支付其违约部分合约价值5%的违约金。

发生部分违约时，违约会员已接收的仓单或资金可用于抵补违约部分。交割过程中故意违约的，将根据《大连商品交易所纪律处分办法》第二十五条规定予以处罚。
